# EVALUATION GRID FOR GLOBAL PRICE CONTRACTS

## **How to prepare the evaluation grid for publication:**

- The categories to be used to assess the organisation and methodology (i.e. rationale, strategy, support facilities, involvement of the consortium members and timetable of activities) may **not** be modified if profiles of key experts have been requested. The assessment of key experts' profiles is part of the strategy.
- The points allowed to the 'support facilities', 'involvement of all members of the consortium' and 'timetable of activities' may be distributed to 'rationale' and 'strategy' if appropriate for the project.
- The overall total maximum score is 100 and cannot be modified.
- Those maximum scores cannot be modified after the deadline for informing potential tenderers of any clarifications.

## **How to complete the evaluation grid at the evaluation stage:**

- The members of the evaluation committee should familiarise themselves with the instructions and guidelines to evaluators (annex b12b) and shall complete independently from each other the evaluator's grid (annex b12b).
- The strengths and weaknesses in this evaluation grid must reflect the commonly agreed by the committee amongst all those pointed out by the evaluators in their individual grids.
- The evaluation committee must evaluate tenders on the basis of this evaluation grid, which includes maximum scores.
